1957 Edition No. 1

January 15, 1957

NEWS

INTRODUCTION - This first edition of the New Year is being written by the State Office. All of the District Supervisors have written an edition now. We think that everyone of them did an excellent job and in the future we will call on them again.

SALES - A look at the calendar will show that time is marching on and that the closing date is much closer than we think. Usually it is March 31, but it could be earlier if conditions warrant. With very little snow to date we may have an early spring. March could be windy and the soil could really start moving. If this happens and producers start "running in" to sign applications because they think that the prospects of collecting look good we will just have to stop sales.

Agents should have their sales campaigns fully planned by now and the plans should be in operation. Letters and pamphlets should be mailed. Newspaper, radio and TV advertising should be started. Greater and more effective use of the prospect letters sent from this office should be made. And above all you should have agents and yourself making the personal contacts that will spell success or failure when the campaign is over. We have stressed the need for personal contacts over and over again. Contacts do result in sales. This is a proven fact.

With this issue we start listing sales and cancellations by Supervisor Areas. What have you done to make your area stand out? Did you hold down cancellations? Have you made sales? Did the cancellations pile up so that more sales will be needed to meet the goals? The record is there.

SALES REPORTS - Why every Agent can't make up a sales report on Monday morning of each week is a mystery to us. We doubt if it takes more than 15 minutes to do the job. Please get these reports in, we need them.

ACREAGE REPORTS - It's time to be putting the headings on them, Order supplies as needed.

DEBT REGISTER - In the near future you will receive the Statements of accounts which will have to be reconciled. Please check your records carefully now and when the Statements come the job will be easier. Try to collect the outstanding 1956 premiums by March 31 so that the contracts will not be cancelled because of an unpaid debt.

AGENT CHANGES - We wish to welcome the new agents that have taken on the responsibility of operating the Crop Insurance business in their counties. We know that you will do a good job. All of us will do everything we can to help you understand the operating procedure so that you will be able to give the best possible service to your insureds.

Bottineau County - Rex Stair of Bottineau is the new agent. Rex operates an insurance agency, real estate and farm management business. Ole Thompson sold the crop insurance business to Rex and is taking a well earned vacation.

Kidder County - Arthur Kirschenmann of Steele is our new agent. Art has been operating an insurance agency at Dawson but has moved to Steele. He and our former agent, Otto Wolpert, are operating a general insurance agency together.

Mountraill County - Lawrence Johnson of Stanley is the new agent. Lawrence has been the Mountraill County Extension Agent. Our former agent, Howard Steffen, felt that because of illness in his family he could no longer give the proper service to his insureds.

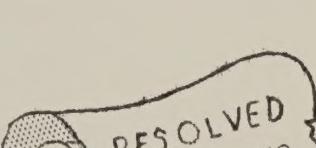

Morton County - For the time being Supervisor Olson is handling the work in this county. We expect to appoint a new agent soon or will use a Service Agreement.

NODAK CROP INSURANCE

FARGO, NORTH DAKOTA

1957 Edition No. 2

January 29, 1957

SALES - The cold and stormy weather last week made it a little difficult, perhaps, for you to make all the contacts that you had planned. If so, it should only make all of us realize why it is so important to "make hay" when roads and weather are good. A prolonged spell of bad weather could reduce the number of days that are left in which to sell by a considerable number.

If personal contacts could not be made, we hope that you spent your time perfecting your plans, making up lists of producers to be contacted, getting letters ready and doing the thousand and one other jobs that need to be done.

Since only about two months of the sales campaign remain (two months is the maximum) every agent should be ready to make the personal contacts that are the vital part of a successful campaign. From here on any salesman who wears out his pants before his shoes isn't doing the job that a successful salesman does and that is to make contacts and still more contacts.

THE SCORE - Supervisor Markel's area leads the State in total sales and has the two leading agents. W. K. Foster in Stark with 77 sales has a slight lead over Gerard Muggli in Golden Valley who has 71 sales recorded. Muggli hasn't too far to go to reach the maximum contract figure for his county. The sales in Markel's area have exceeded the cancellations.

SALES REPORTS - Again we ask - Why can't we get reports every week from every agent? Your failure to report could prevent us from having 100% of the reports.

DEBT REGISTER - We have furnished ASC offices with a listing of accounts receivable as of December 31, 1956 to use as a debt register until the regular Statements of accounts are available. We received only one copy so we couldn't furnish you with any. Where possible you should check the ASC listing against your records. We hope that the regular statements of accounts will reach us soon so that the reconciliation can be completed in the near future.

NEWS

GOOD ADVICE - The following poem is taken from "The Needle" which the State office located in Spokane, Washington issues.

* * * * *

ANIMAL KINGDOM ADVICE

A hen is not supposed to have much common sense or tact, yet every time she lays an egg she cackles forth the fact.

A rooster hasn't got a lot of common sense to show, but nonetheless most roosters have enough sense to crow.

The mule, the most despised of beasts, has a persistent way of letting folks know he's around by his incessant bray.

The busy little bees they buzz; bulls bellow and cows moo; the watch dog barks; ganders quack; doves and pigeons coo.

The peacock spreads his tail and squawks; pigs squeal and birds sing, and even snakes have got the sense to hiss before they sting.

But man, the greatest masterpiece that nature could devise, will often stop and hesitate before he'll advertise.

Now don't you think it is high time for FCIC folks to crow? We think we have as fine a program as any that we know.

Don't be afraid to advertise all the services you can give, once they understand it, they'll thank you as long as they live.

"Keep your nose to the
grindstone on sales".

FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

1957 Edition No. 3

February 14, 1957

SALES ARE CLOSED - The 1957 sales campaign ends on Saturday, February 16, 1957 in Golden Valley county. We don't feel that any more liability can be assumed in this county for 1957. If conditions warrant, sales in other counties may be closed long before March 31, even though the maximum business allotments may not be reached. No agent can depend on March 31 as the closing date. It may come at any time. Selling must be done on that basis. The prospects that you talk to must understand that the insurance offer can be withdrawn if the Corporation believes that it is good business to do so. Crop Insurance is not protection that is given the producer but insurance protection that he must buy and pay for. Therefore, we must operate our business on a sound basis and limiting the liability assumed is one way of doing it.

SALES SLANTS - Most of you have met and heard Earll Nikkel, Director of the Sales and Servicing Division, at our Agents' meetings. Recently Earll gave a talk entitled "Sales Slants". We are enclosing a copy for your use. Read it and then read it again. Also remember what Earll has said at our meetings. We know that you will do a better job of selling if you do.

SALES MEETING - On Tuesday, February 12 we held a meeting at Mandan with salesmen from over the entire State, District Supervisors and several agents who didn't have too far to travel. 18 salesmen and 6 agents attended. We showed two films on selling, discussed selling from all angles and had several show how they go about the job. We feel that it was a good meeting, everybody got new ideas and more enthused about our work. We hope that the sales results in the remaining days of the 1957 campaign will reflect what was learned and planned at this meeting.

APPLICATIONS - Please submit as received or at least once a week if you want to hold some for sales purposes. Remember, however, that a producer can cancel up to the time we accept the application. Once we have accepted and made distribution of the copies, then a contract is in force --- not before. Please watch the numbering and approving of applications. Do it right.

DEBT REGISTER - Please complete reconciliation as soon as possible. Collect 1956 premiums before March 31. Stop terminations.

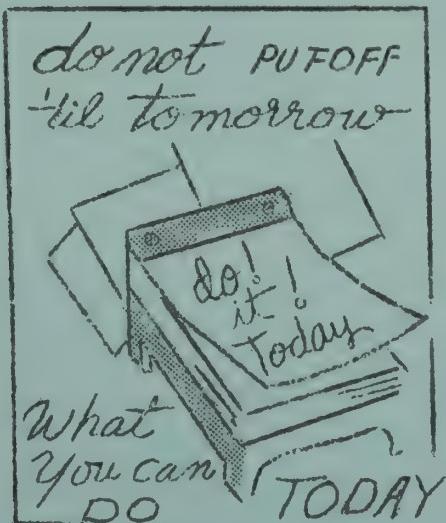

ACREAGE REPORTS - Have you enough? In making 1956 experience maps, we are finding descriptions that appear to be in non-insurable or in different areas than shown. Generally a recheck shows that the description was wrong. Please check all descriptions carefully when 1957 reports are obtained.

FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

1957 Edition No. 4

February 28, 1957

SALES - February will be over by the time you get this issue and we will be into the final days of the 1957 campaign. While the number of applications received in the State Office has picked up during the past few days, the number is still too small and we haven't replaced too many of the cancellations. Let alone showing an increase. Look at the record for the State.

Two weeks ago we held a state wide meeting of salesmen which several agents attended.

You have received copies of the talk made by Earll Nikkel at the Minnesota State Agents meeting. Read it again and use any or all of the points he brought out.

You have received copies of special letters prepared by the Washington office. We also have the special prospect letter that we developed.

Every sales aid should be used, of course, but holding meetings and furnishing printed material will not do the job of making sales. Some agents are taking the sales job seriously. They are putting in all of their time on the road making contacts and are finding that it pays off. You should make contacts all day and every day there is left for sales. Unless you do this, your business will decrease and so will your income. Men, it's your business so why not give it a real effort without any further delay. Your supervisors are eager to help in any way they can. However, no agent should expect his District Supervisor to move in with men to do his selling. Selling is a year around job and must be worked at, all the time. If the Corporation must do the selling every year with their personnel, what justification is there to have agents? Some states have already changed many of their counties from agent to service agreements. I am deeply concerned that we may be forced to make some changes, too, after this year's sales are a matter of record.

During the month of March no agent has any good reason for not making contacts and doing it all day long. How can I impress it on you agents, that you must make contacts and lots of them. Take time to figure out on paper what it costs to grow an acre of the various insured crops and as it applies to the farmer himself. Show him how our coverage will protect the out-of-pocket costs from the day he seeds the crop. Also stress the fact that the cost isn't too high when the annual losses paid out are considered. Stress the advantage of good loss experience and how it can affect the premium. Show him how the premium is further

reduced when he files his income tax return. If you take time to really explain crop insurance to those contacted and show them on paper how it will affect their operations, I'm sure you will be surprised at the number of sales you will make. This has been proven in every county this year where a plan similar to above has been carried out. But you must make contacts right out on the farm. Roads have been very good this year, so we can't use that as an alibi. Neither can we expect any extension of the deadline for sales. As you know, Golden Valley sales have already been closed. More may be closed in the next couple of weeks. So farmers should be advised that the time to sign up for Federal Crop Insurance protection is fast drawing to a close and that you cannot say March 31 is the deadline. No doubt long before now you think the State Director must have a grouch on. Well, I haven't but I don't know how else to explain the need for you to make personal contacts and lots of them. You haven't a day to lose.

APPLICATIONS-- We know that there are applications in your offices, please transmit as previously instructed.

PREMIUM COLLECTIONS - March 31 is the last day for paying a 1956 account if the insured expects to be insured in 1957. Make all possible collections. Many times you can work in these contacts with your sales work.

RECONCILIATION OF ACCOUNTS - This job is moving right along but will take longer than we had originally thought. If you haven't sent in your exceptions do so immediately.

SALES REPORT -
